

Class 15: React States

Announcements

- Please give me feedback on videos!
 - I'm hoping the sound is louder this time
- Midterm Project will be posted today
 - Watch this video first!
- Midterm Written Portion will be posted after Wednesday

Last Class' Objective

Be able to create a shopping cart page like so:

Item			Count
Item 1	<input data-bbox="421 482 533 555" type="button" value="+"/>	<input data-bbox="569 482 681 555" type="button" value="-"/>	0
Item 2	<input data-bbox="421 632 533 705" type="button" value="+"/>	<input data-bbox="569 632 681 705" type="button" value="-"/>	0

Before

Components and Buttons all in one place!

Not what React is built for, we want individual components to be able to speak to each other.

Necessary topics

Event Handlers

Lifting State

Explaining Midterm Part 1

What to Walk Away With

- Know how to pass events (or keys)
- Know why we lift state
- Look through and tinker with tic tac toe!
